

CHICAGO CHAPTER NEWS-ORD

Evie Kolbrick Fegan along with her daughter and grandsons are planning on an Alaskan cruise this summer. Evie is proud of her daughter Tel, being a mother to triplet boys and just receiving her masters Degree in June!...

Ruth Koh Metzler just had a wonderful three weeks with both of her sisters who came in for her club's Wildcat Invitational, a three day golf tournament. Had fun...sun shining and warm so they enjoyed the pool and spa. Ruth says she has been at their Florida home since Nov 7 so it's been a great winter. She had her grandchildren down over Christmas which made her so happy. Ruthie sends this note - "Looking forward to our convention and seeing everyone Miss you all."

DeeDee Bournemann Skoug with husband Charles visited Ruthie and husband Charlie at their Florida home.

Rosemary Pasquale Lanzillotti says the winter weather has been great compared to the prediction of a cold and snowy winter. Lanzillotti Family didn't do too much of anything but go the sport activities. Husband Joe donated his 1988 Cadillac to Make-A-Wish foundation - he even filled the tank with gas.

Shirley McCreary Johnson as reported by Ruth - Our buddy Ms Shirley is still doing about the same. Her sisters are planning on taking her to convention if they can swing it? I told them we are excited and all looking forward to having her join us! I keep pushing her to move that arm and leg but after seven years it just might be my big dream for her but I keep trying.

Evie Kolbrick Fegan, Cathy Carroll (prospective ORD member) and myself had a luncheon date in St. Charles, IL. Had a great time and planning to attend the Convention.

Lorrie **Washburn Fantino** spent more time at their home in Ft. Myers, FL this year...but being there brings with it quite a few guests from other parts of the country. They've come from Wisconsin, Boston and San Pedro, CA...but Sam and I love it! I will be at the Charleston Convention with a new member...Cathy Carroll

Gail Cadman Robb says she spent the holidays with family and friends in Chicago. She relates that she became a member of The Silver Falcons, Inc, which she says is very appropriate for a former EAL F/A flying out of CHI, mostly MDW in 1959 through the early 1960's. We had many "Silver Falcon" flights out of CHI. I loved the twin engine airplanes, especially the Martin 404 - 40 passengers, three crew airplane. An example of a twin engine flight I worked (taken from an old EAL timetable): Flight 179 which originated at MDW to IND-SDF-LEX-CRW-ROA-GSO, terminating with a layover in CLT! Great Fun.
